Analysis and Design Overview

**Question 1. What is the focus of analysis?**
A. translating functional requirements into code  
B. translating requirements into a system design  
C. translating real-world concepts into solution-oriented objects  
D. translating functional requirements into software concepts

**Question 2. What are the three purposes of Analysis and Design? (Choose three.)**
A. to provide an organizational context for the system  
B. to transform the requirements into a design of the to-be system  
C. to evolve a robust architecture for the system  
D. to scope the system to be built and describe what it must do  
E. to adapt the design to match the implementation environment
