

# Homework 01

## Task 1.

Log on and play around with course's website

## Task 2.

Install JDK to your home computer:

<http://www.oracle.com/technetwork/java/javase/downloads/jdk6-jsp-136632.html>

Installation instructions can be found at:

<http://www.oracle.com/technetwork/java/javase/index-137561.html>

Write and compile your first Java program by following closely the steps described at thread Getting Started..., Sun Java tutorial.

<http://download.oracle.com/javase/tutorial/getStarted/cupojava/win32.html>

Note: during the next lab section, you will have to show your lab instructor that you are able to use command-line tools to compile and run Java programs.

## Task 3.

Readings: *Java How to Program*, Chapter 2

Basic data types: Integer, character, Boolean...

Keywords, naming style (classes, methods, data members)

## Task 4.

Self-review exercises 2.1 .. 2.6, Chapter 2, *Java How to Program*. Try not to look at the book's solutions and remember "No plagiarism!"

You should hand-write the answers on a sheet of paper and submit it at the beginning of the next lecture.
